

Ask Your Dermatologist About Electronic Brachytherapy (Skin eBx)

When it comes to skin cancer, it is important to understand all your treatment options. It is also important to talk with your dermatologist about your personal needs and treatment goals. These questions will help you talk with your dermatologist about Electronic Brachytherapy (Skin eBx).

Is Electronic Brachytherapy (Skin eBx) right for me?

How does Skin eBx work?

Can I still do my normal activities after getting treatments?

Should I expect any side effects or scarring during or after treatment?

How long does treatment take? How many treatments are required?

Where can I get Skin eBx treatment?
